

## TESTIMONIES FOR SENATOR BAILEY

Former Governor Francis of Missouri Appears Before Texas Committee.

**MAKES EMPHATIC DENIALS**  
**WANTS CHARGES PROVEN OR WITHDRAWN.**

St. Louis, Feb. 9.—A special to the Post-Dispatch from Austin, Tex., says: Former Governor D. R. Francis of Missouri was the star witness today before the Bailey investigating committee, and repeated his denials on behalf of the Senator Bailey. Senator Hanger, attorney for Bailey, submitted to Governor Francis the second clause of the Cocke charges referring to the purchase of Gibbs' ranch.

"Is that charge true?" asked Senator Hanger.

"Absolutely false," replied Francis, "except that I did assist Bailey to buy the ranch. He later told me of paying Senator Bailey's obligations to H. C. Pierce."

**Charges All False.**

Senator Cocke asked Francis if he was the medium through which Pierce was to secure Bailey's political or legal influence to re-enter the Waters-Pierce oil company in Texas. Francis emphatically said he had nothing to do with the Waters-Pierce oil company. He insisted that the charge was a reflection on him, and he wanted the charges proved or withdrawn. Witness wanted to be sure this statement got into the records. In April, 1900, Francis visited Bailey at Gainesville to come to St. Louis, and in which he said:

"I am sorry the senator shows irritation," said Mr. Burkett.

Mr. Warren said that to the best of his knowledge, the government had no reserve rifles except those in the hands of the state militia, and the incident closed.

**Recommended Bailey.**

Pierce had told the witness his Texas troubles and asked about a Texas lawyer to help him. Francis recommended Bailey.

"What, that Texas politician?" said Francis.

Mr. Francis said he gave Bailey strong recommendation to Pierce and then added the introduction. He denied this had anything to do with Gibbs' ranch purchase.

Francis said Pierce later told him that he had loaned money to Bailey. He (Francis) found in his letter book that Nov. 2, 1900, he paid Mr. Pierce \$3,300. Bailey had directed him to do so. He did not remember whether Bailey did or did not advance the money, but he would have loaned it to him any way. Mr. Francis told of his conference with Pierce, in which he said:

"Clay, you are not going to let Bailey do that work for you for nothing?"

Pierce replied Bailey would not take that but he (Pierce) had loaned him money. Mr. Francis recalled a letter to Pierce in which he sent \$4,800 to pay Bailey's obligations, and that Pierce returned due bills of Mr. Bailey's obligations.

**TRAINMEN ARRESTED.**

Ossining, N. Y., Feb. 9.—The conductor, engineer, fireman and helper of the freight train which is said to have caused the wreck which occurred last night on the New York Central, resulting in the loss of two lives and injury of several persons, were arrested today by order of the coroner.

**SHORTS EXPLAINING.**

Washington, Feb. 9.—Chairman Shonts of the isthmian canal commission continued his explanation of the estimates of the expenses of the project for next year today before the house committee on appropriations. No discussion was had today of the proposition to build the canal by contract.

**Does Your Stomach Feel Happy When Meal-Time Comes?**

When you sniffle in the air the appetizing aroma of something cooking, do you feel that you could sit down, open your mouth, pin back your ears and eat with a delicious gusto, everything set before you, and not feel any effects from it?

In other words, can your poor stomach take care of everything and anything you put into it? There are thousands and thousands of people who do not know what it is to have a good, strong, healthy stomach, nor do they realize what it is to have a good appetite.

You can have an all-powerful stomach and a fetching appetite for two stomachs, and every day, if you give your stomach a rest, and let something else take hold of your food for you and digest it as it comes into the stomach, that really does the work of digesting quickly and thoroughly.

This "something" is Stuart's Dyspepsia Tablets, the most effective little tablets in the world for curing anything that may be wrong with your stomach. One ingredient of these precious little workers digests 2,000 grains of the coarsest or richest food put into the stomach.

Think of it, 2,000 grains. They are really an artificial stomach, because they act just like the stomach, they digest your food, just as though you didn't have a stomach at all. It supplies the stomach with the digestive juices which have become weak and scanty.

Then your hunger, dyspepsia, sour risings, brash, belchings, acidity, fermentation, loss of appetite, aversion to food, bloating, flatulence, and nausea, will be no more. You can then eat anything you want, all you want, whenever you want, and your stomach will feel fine because it is a pleasure to eat and relax, and your digestion will be thorough and soothing to the whole body.

You can't do your work well, or be cheerful, or have energy or vim or ambition, when your stomach is bad. Make yourself feel good after a hearty meal, make your good old, clear your mind and make you enjoy life, by taking Stuart's Dyspepsia Tablets.

Give your stomach a rest, so it can right up your name and feed nothing. Send a free sample package of Stuart's Dyspepsia Tablets by return mail. After you have tried the sample, you will be so thoroughly convinced that they can do for you that you will go to your nearest druggist and get a 50 cent box of them.

Send your name and address today, and we will at once send you by mail a sample package free. Address P. A. Stuart, 100 N. Second St., St. Louis, Mo.

## UNABLE TO LOAD THE GUNS ONCE

Spanish-American War Found Uncle Sam Exceedingly Short of Powder.

**ARMY BILL IN THE SENATE**  
**DEBATE OVER ARMING STATE MILITIA.**

Washington, Feb. 9.—The army appropriation bill was taken up in the senate today. An amendment authorizing the secretary of the interior to exchange public lands for private lands, when military organizations, went out on a point of order. Senator Carter contended that it gave too much leeway for the swapping of lands.

The adoption of an amendment authorizing the secretary of war to supply militia of the various states with arms and equipment used by the regular army created considerable discussion. Mr. Burkett asked for information as to the number of rifles the government had in reserve.

**Caught Unprepared.**

"I will say," replied Mr. Warren, "that when the Spanish-American war broke out we had not powder enough to load once the guns we had, and we had not guns enough to arm 20,000 reserves, when we appropriated money and went abroad and bought the guns."

"I submit this is not a reply to my question. The senator is not stating anything about the guns we now have in reserve, and if the same condition now, the secretary of war has not done his duty," replied Mr. Burkett.

"Does the senator think it would be a good thing for me to stand here and tell to the country and to foreign nations just how much powder and ball we have on hand?" asked Mr. Warren.

**Bacon Raises a Question.**

Senators Bacon and Tillman asked a number of questions concerning the status of the affairs of the United States in Cuba. Mr. Bacon raised the question as to the right of the president to set up a government without an act of congress, but he said he would not press the discussion at this time.

Mr. Tillman inquired of Mr. Cullom, chairman of the committee on foreign relations, whether he had any information concerning the period of American occupation, and when the United States troops would be withdrawn. Mr. Cullom said he had nothing to add to the president's message on that subject.

"I am sorry the senator shows irritation," said Mr. Burkett.

Mr. Warren said that to the best of his knowledge, the government had no reserve rifles except those in the hands of the state militia, and the incident closed.

**Rate Bill Too Strong.**

Senator Clapp, discussing the transportation amendment, suggested it should be framed as to give the government the benefit of a reduction of rates.

Senator Warren made a plea for the right of army officers to accept passes, calling attention to General Funston's declaration that they are now getting less than had carriers in San Francisco.

This elicited from Mr. McCumber a sarcastic reply that his "heart also bled for the poor militiamen who drive to the railroad stations in their carriages, and he contrasted their condition with that of the ordinary man to their great advantage."

Mr. Scott suggested the hardship occasioned when the officer was ordered from one army post to another, in which case he had to bear the expenses of transportation for his family and household goods.

**Some High, Others Low.**

Mr. McCumber replied that this was a hardship placed upon government employees of all kinds. He also criticized the great differences between the salaries of the officers of the higher and lower grades. The compensation of the latter he regarded as inadequate. It was the greatest privilege that could come to a young man in this country, he said, to be educated by the government, assured of a commission in the army and then of retiree pay.

Mr. Warren pictured the hardship of the enlisted man in the Philippines when compelled to pay his own transportation to his home.

The hardships of the army officer were pointed out by Senator Spooner. Referring to the rate bill Mr. Spooner remarked:

**Spooner's Opinion.**

"I think if we could have proceeded to the enactment of the rate legislation in the usual senatorial way, with less friction and more of conference and discussion, such as is usual when the senate acts itself, perhaps some provisions of the bill which are today found objectionable, and the others which are today found to be good, would not have been discovered, and would not have been eliminated, and this is a good place to eliminate it."

Mr. Warren pictured the hardship of the enlisted man in the Philippines when compelled to pay his own transportation to his home.

The hardships of the army officer were pointed out by Senator Spooner. Referring to the rate bill Mr. Spooner remarked:

**Violation of the Principle.**

"But it violates the principle we established," persisted Mr. Warren.

"Is there any evidence here," interposed Mr. Tillman, "of the transcontinental roads competing against the land grant roads, with which the government has already performed its contract—are any of these roads asking the privilege of handling government material at one-half rates? If that is so, it is overwhelming proof, an unanswerable argument for a reduction of railroad rates all over the country."

"I don't know of a single road, or a single railroad man," answered Senator Warren, "that has even mentioned the matter. I am approving it from the side of the war department, and more especially the officers themselves. It is not certain yet that the interstate commerce commission will not rule that the railroads can make reduced rates to the government."

This remark caused an exclamation of surprise from Mr. Aldrich and Mr. Tillman simultaneously.

"Did you say the commission held it had power to make such a ruling?" was the question asked.

Mr. Warren could only "guess" that the commission had the power. The question of the bill was postponed until Monday.

**REMOVED FROM OFFICE.**

Columbia, S. C., Feb. 9.—Governor Anderson removed from office J. M. Rawlinson, John Black and J. B. Wylie, directors of the state dispensary, who were charged with neglect of duty and incompetency.

## Excellent Home Treatment for Consumption and Throat Troubles

The camps for tuberculosis patients in the pine forests of Maine, established by the Philadelphia specialists, have demonstrated a new and wonderfully successful phase in the treatment of pulmonary diseases. The method pursued has gained almost universal recognition among the medical profession.

In an interview recently by a New York newspaper representative some information that will prove of immense value to the public in general was given out.

The remarkable stimulating effect on the respiratory organs by the resinous atmosphere of the pine forest has been a matter of great interest to the medical world, and that doctors in general would have long since availed themselves of the great curative merits of the pine sap had they been able to obtain its active principle freed from the many deleterious matters with which it is associated by nature. This has been one of the achievements of the work in the forest camps and he has produced what is known to the medical fraternity as Concentrated oil of pine. If this preparation be used in connection with plenty of outdoor exercise and the habit of taking deep, long breaths every few minutes, patients will have all the advantages of the pine forest camps right at their own homes and the most effective remedy available for any case of lung trouble that is not too far advanced, and a cure for any cough that is curable. The formula as originally prescribed is the following: "One-half ounce Concentrated oil of pine; two ounces of glycerine; eight ounces of good whiskey. It should be shaken thoroughly and taken in tablespoon doses every four hours."

The ingredients can be procured from any well-stocked prescription druggist. Care should be taken to secure only the "Concentrated" oil of pine, which comes put up for medicinal use in half-ounce vials and enclosed in small round screw-top cases, which protect it from heat and light. The ordinary bulk oil of pine is useless, owing to the foreign matter that it contains. However, the patient's medicine initiation labeled "Oil of Pine." They only produce nausea and fail in specific results.

So-called "Weakness" in men is merely a symptom of chronic inflammation in the prostate gland, brought on by early dissipation or by the improper treatment of some contracted disease. A complete and radical cure is, therefore, a question of restoring the prostate gland to its normal state, and this we accomplish promptly and completely without the use of internal remedies. Our treatment is a local one entirely. It is original and scientific, and has been proved absolutely effective by thousands of tests. We are convinced that by no other methods can full and permanent restoration of strength and vigor be accomplished.

## MILLIONS ARE STARVING

**Appeal Made to the People of the United States for Unfortunate Russian Peasants.**

Washington, Feb. 9.—Through the Russian embassy in this city Secretary of State Vassokol and plenipotentiary of the Russian famine relief committee has transmitted an appeal to the American people for financial assistance to aid starving peasants who number into the millions. This committee was organized in 1905 under the auspices of the empress of Russia for relief work in that year. It is requested that contributions be forwarded to Galkine Vassokol, the secretary of state, Shukowski street, 27, St. Petersburg, or to the chancery of the famine relief organization in this city. Receipt will be acknowledged in the Official Messenger and in all other newspapers which have opened subscriptions for the relief fund.

**NOT FOR NEEDY COLLEGES.**

Rockefeller's Gift Will Go to the More Prosperous Institutions.

Chicago, Feb. 9.—President A. W. Harris of Northwestern university last night, in commenting on the donation of John D. Rockefeller to the general education board, for the purpose of promoting the cause of education throughout the country, found one serious objection to the system of the board in handing out the money.

"The colleges that need the money the most cannot afford to have it because of the conditions which must be complied with to get it," said President Harris. "For instance, Beloit was offered \$200,000 by the board as one-third of an endowment on condition that the college would raise the other two-thirds, \$400,000. This Beloit found impossible, and consequently could only obtain \$50,000 of the amount. The college that can raise two-thirds of such an endowment is not the college that needs the money most."

**COUNT BONI APPEALS.**

Frenchman Still Has Hope of Making Better Terms.

Paris, Feb. 9.—The rumor that Count Boni de Castellane had appealed from the decision of the courts last November granting a divorce to his wife, who was Miss Anna Gould of New York, is confirmed. The period under French law in which such application can be made expires Feb. 11, and the notice of appeal entered in behalf of the count prevents the decree from becoming definite on that date, thereby keeping alive Count Boni's hope of reaching an agreement until the appeal is finally decided. Probably several months will elapse before the matter comes before the courts.

**HEADQUARTERS LOCATED IN FEMALE UNIVERSITY**

Moscow, Feb. 9.—The headquarters of the flying group of terrorists whose agents were sent out to execute the death sentence imposed on General Ignatieff, lieutenant general Evloff, and General Von Der Launitz and Governor Alexandrovsky, of Pensa, have been located at the Moscow female university. The police searched the university buildings and many nearby tenements and arrested eight girl students and a number of men, but the others have thus far escaped. A number of bombs and sixty pounds of pyroxylin were seized at the university.

Mr. Scott says: "I have suffered from a complication of Catarrhal diseases for five or six years. My stomach distressed me, my appetite was poor, my eyesight affected, had earache, any my head ached CONSTANTLY in spite of all I could do, and my night's rest was always broken. I have treated with the most eminent Doctors in the United States, without relief. I was under the care of the most noted specialists in Denver for seven months, and got absolutely no relief, although I spent lots of money on treatment. Two months ago I came to Drs. Shores & Shores and began their treatment. IN ONE WEEK I FELT BETTER, and have steadily improved since, and today my stomach is all right, I sleep better than for years, my terrible headaches are almost entirely a thing of the past, and I can honestly say that Drs. Shores have done me more good in two months than all the doctors and medicines I have used in six years, and I want to tell everybody who suffers all about my case." (Signed) "PERLEY K. SCOTT."

Former Mayor Harrison of Chicago Will Run Again if Anybody Asks Him.

Los Angeles, Feb. 9.—Carter Harrison, former mayor of Chicago, who has been spending the winter at Pasadena, left at 6 o'clock this evening for Chicago. Mr. Harrison stated today that he is hardly in touch with Chicago politics, although he has been in communication with friends on the Democratic nomination for mayor if it is tendered him.

Before leaving Mr. Harrison said: "I shall remain in Chicago until after the municipal elections there. No, I have nothing new to add to the matter of the mayoralty nomination. My position is the same that it has been for a month past. I am simply in the hands of my friends."

Regarding the messenger who is supposed to be speeding westward with important communications for me relating to the mayoralty nomination, I have not seen him yet. I shall keep an eye out of the window on the way east for him, as he may have been stalled in the recent storm. I am in splendid health just now and the health of my family is also improved."

Pennsylvania Court Hands Down Opinion in Jutte Case.

Pittsburg, Feb. 9.—Judge John D. Shafer today rendered his decision in the famous Jutte case, which was brought by the Colonial Trust company, administrator of the late W. C. Jutte, who committed suicide in Atlantic City, and his heirs against F. N. Hoffstott and J. W. Griend, alleging that they controlled stock of the Jutte Coal company which belonged to Mrs. W. C. Jutte.

The suit was for an injunction to restrain the sale by the defendants of collateral of the plaintiff decedent for a debt alleged to be due from him under certain contracts, to set aside these contracts as being made while Jutte was insane.

Judge Shafer says the court is unable to find that Jutte was insane at any time affecting the business transactions. The bill is accordingly dismissed.

Mrs. Jutte's attorney said: "The case involves \$1,000,000, and the defendant of the Salt Lake Canal. He was also a member of the board of consulting engineers of the Panama canal."
